

# NASRIN A MAHIN

## FULL STACK DEVELOPER - PYTHON

Irinjalakuda, Thrissur, Kerala, India,

Phone: [+91 8075165355](tel:+918075165355) | Email: [nasrinamahinofficial@gmail.com](mailto:nasrinamahinofficial@gmail.com) Portfolio: <https://nasrinamahin.vercel.app> | LinkedIn: [www.linkedin.com/in/nasrin-mahin](https://www.linkedin.com/in/nasrin-mahin) GitHub: <https://github.com/nasrin-a-mahin> | LeetCode: [leetcode.com/u/Nasrin\\_A\\_Mahin](https://leetcode.com/u/Nasrin_A_Mahin)

## PROFESSIONAL SUMMARY

---

Full Stack Developer with hands-on experience building and maintaining scalable cloud-based web applications using Python, Django, REST APIs, and React. Strong in Backend development, database management, API integration, and debugging. Experienced in collaborating with cross-functional teams and mentoring juniors. Seeking Full Stack / Backend Developer roles in UAE & GCC with long-term growth potential.

## TECHNICAL SKILLS

---

- **Languages:** Python, JavaScript, SQL
- **Web:** HTML5, CSS3
- **Frontend:** React.js, Tailwind CSS, Bootstrap
- **Backend:** Python, Django, Django REST Framework (REST APIs)
- **Databases:** MongoDB, PostgreSQL, MySQL
- **Testing:** pytest, pytest-Django, DRF API testing, Postman, Coverage.py
- **Tools:** Git, Figma, Vite

## PROFESSIONAL EXPERIENCE

---

**Full Stack Developer and Trainer** | *G-Tec Computer Education, Irinjalakuda* **12/2025 – Present**

- Conducted **hands-on training sessions** in **Data Analytics, Data Science, and Python Full-Stack Development** for students at G-Tec Computer Education.
- Delivered practical instruction on **Python, SQL, data analysis concepts, Django fundamentals, REST APIs, and basic frontend integration**, focusing on real-world use cases.
- Assisted in curriculum execution and continuous improvement of training delivery based on student learning needs.

**Junior Software Engineer** | *AAGNAK Info Logistics* **10/2024 – 10/2025**

- Developed and maintained backend services using **Python, Django**, and **RESTful APIs** to support core business workflows.
- Designed and optimized database operations using **MYSQL**, improving data retrieval efficiency and application performance.
- Debugged, optimized, and refactored existing codebases to improve maintainability and performance.

- Delivered structured training in **Python programming**, covering core concepts, OOP, data structures, and algorithmic thinking.
- Built and guided students through **Python-based projects** including automation scripts, games, and logic applications.
- Actively involved in **debugging, code optimization, and problem-solving**, strengthening practical development skills.

- Performed **functional testing** across multiple application modules to validate requirements and ensure quality standards.
- Created and executed **test cases and test scenarios**, documenting defects and supporting timely issue resolution.
- Collaborated with developers and senior testers to **verify bug fixes and regression scenarios**.
- Assisted in maintaining **test documentation** to support structured QA processes.

## PROJECTS

---

### Student Management System

[GitHub Repo](#)

- A full-stack Student Management System built with Django featuring role-based authentication, student CRUD, attendance tracking, grading, and reports.

### Personal-Website

[GitHub Repo](#)

- Built responsive portfolio with javascript, CSS.

### Underwater-Image-Enhancement-with-Hyper--Laplacian-Reflectance-Priors

[GitHub Repo](#)

- Developed a novel retinex variational algorithm to enhance underwater images with hyper-laplacian reflectance priors.

## EDUCATION

---

### Master of Technology (M.Tech)

07/2022 – 04/2024

### CUSAT

Bachelor of Technology (B.Tech)

### APJ Abdul Kalam Technological University

08/2015 – 04/2019

## LANGUAGES

---

English, Malayalam, Hindi
